Amateur Radio Club.—There was formed at a meeting in Ballarat the other evening a club that is going to occupy an important position in the social life of this city, that is, the Ballarat Amateur Radio Club. The election of officers resulted in the following being elected:—Mr R. Bennet, president; Mr W. A. Wilson, hon. treasurer; and Mr E. J. T. Tippet, hon. secretary. The aim of the club is to enable its members to help to further their knowledge, and the knowledge of the public in general, with respect to wireless, especially as to the concerts which are now being broadcasted from Melbourne weekly. At the termination of the meeting the members were entertained by a concert from Melbourne, obtained by means of a powerful valve wireless set. Intending members may get fuller particulars by reference to the advertisement portion of "The Star."
