Ballarat Radio Picks Up U.S. Message For Guba

BALLARAT, Wednesday. — While experimenting from his short wave station, VK3WD, yesterday, Mr W. D. Mather, radio engineer, of Lyons Street South, Ballarat, found a New York station, W2LKV, seeking to contact Australia with an urgent message.

Mr Mather was asked by the American announcer to inform Commander Yancey, officer-in-charge of the luxury

flying boat, Guba, now at Port Phillip, that his brother-in-law had died.

Mr Mather promised to deliver the message to Commander Yancey, and, after getting in touch with radio people in Melbourne, the message was passed on.

Mr Mather was able to contact the American station again last night, after arranging with them, and was able to inform them that the message sent from more than 15,000 miles, had been delivered.
